

Jeri Bingham – Client Testimonials

The bulk of Jeri's business comes from repeat business and referrals from very satisfied clients. Below is a small sampling of what her clients have said and feel about their experience of partnering with Jeri.

We had a wonderful experience with Jeri! She made our home buying experience a complete success! I cannot say enough about her knowledge and understanding of the real estate market and how important and helpful it was to us. There was never a question she could not answer, a frustration she could not temper, or a fear she could not calm. I was amazed at her willingness to be there for us, regardless of the time of day, even on the weekends.

Jeri treated us like we were friends, and ensured that others treated us fairly and that we were getting a "good deal"! I love her open and honest demeanor that guided and directed us to the things we needed to look for in a home, the kind of neighborhood that would suit us best, and the things that we needed to know and understand about the real estate market. She taught us a lot about what is important when purchasing a home. We love our new home and would not have found it if it weren't for her concerted efforts.

We trust her completely, and I wholeheartedly recommend anyone to utilize her talents and abilities when purchasing a home or any other form of real estate, as I will once again for my next purchase. She made my buying experience easy! K & J Wright

Jeri was AMAZING! We were first time home buyers and she was so knowledgeable and explained everything to us so that we could understand. She was always quick to return my calls and emails so we were never just sitting around anxiously. She was also amazing at negotiating, we were the first ones to look at our current home and it was a short sale and because of her negotiating skills our offer was quickly accepted and rushed to the bank so that no competing offers could come in. She was always on top of everything and kept us updated on the whole process while we waited to hear back from the bank. I couldn't be happier with my experience. As a first time home buyer I know that buying a home can be very stressful and intimidating and if it weren't for Jeri we never would have gotten the beautiful home we have now and would have had a much more stressful experience. I can't express enough how amazing she is! J & A Jones

Jeri is the bomb. I have worked with Jeri before and her attention to detail as far as getting things right is crazy. There is no way I could match her energy level or willingness to kill herself for her customers, but somehow she does it. She is my definition of customer service for realtors.

Jeri was wonderful! We enjoyed working with her so much. She was extremely helpful, knowledgeable and dependable. She answered any questions we had with her honest professional opinion. She kept us up to date throughout the whole process from start to finish. We also appreciated her professional network of builders and other agents to help get opinions in helping us find the best house and price to meet our needs. She has a lot of experience and that knowledge showed. She worked hard to get us what we wanted and we are so pleased with the end result. We truly felt like we were in good hands. Not to mention she is a genuinely kind person and an absolute a pleasure to work with. We would recommend her to anyone! You can tell she cares about you and your goal of finding you the best home possible. K & A Clark

Jeri is a true agent that watches out for the best interest of her client. She is great from start to finish and has a true work ethic that is hard to find in today's world. I would recommend her to my family and friends. R Higgins

Jeri, you were fantastic! Having several options of real estate agents to choose from who are all friends, I was really worried about choosing the best one for us. Quite frankly, I chose you because I thought you would be a better fit for my wife than the other agents. This was true, but the surprise came when you were a better fit for both of us. I appreciated your "tactful, straight-forward" approach. You told us what we needed to hear to sell our house and it worked. You also brought a calming influence as we searched for a new house which was so essential. Thank you! Thank you! Thank you! You are the best. I wish I knew 10 people right now who are thinking about selling their house. I will refer you to anyone I hear about! G. Smith

Dear Jeri, thank you so much for all you did for us in getting our home sold and buying a new one. You were so amazing. You really spent a lot of time and effort trying to help us get the best situation possible. Besides all that – you are just so much fun to be with and I feel like you are a friend that I miss terribly. C. Smith
